C Programming is a tutorial teaching the C programming language. C is the most commonly used programming language for writing operating systems. Not only is C a popular language for operating systems, it is the precursor and inspiration for almost all of the most popular high-level languages available today.

Andrew Stephen 'Andy' Grove (born AndrÁs IstvÁn GrÁf; 2 September 1936 – 21 March 2016) was a Hungarian-born American businessman, engineer, author and a pioneer in the semiconductor industry. He escaped from Communist-controlled Hungary at the age of 20 and moved to the United States where he finished his education. He was one of the founders and the CEO of Intel, helping transform the ...

A field-programmable gate array (FPGA) is an integrated circuit designed to be configured by a customer or a designer after manufacturing – hence the term "field-programmable". The FPGA configuration is generally specified using a hardware description language (HDL), similar to that used for an application-specific integrated circuit (ASIC). Circuit diagrams were previously used to specify ...
