Relearning the Art of Asking Questions - hbr.org

A question is an utterance which typically functions as a request for information. Questions can thus be understood as a kind of illocutionary act in the field of pragmatics or as special kinds of propositions in frameworks of formal semantics such as alternative semantics or inquisitive semantics. The information requested is expected to be provided in the form of an answer.

Closing is a sales term which refers to the process of making a sale. The sales sense springs from real estate, where closing is the final step of a transaction. In sales, it is used more generally to mean achievement of the desired outcome, which may be an exchange of money or acquiring a signature. Salespeople are often taught to think of targets not as strangers, but rather as prospective ...

A bit of explaining as to what that %2520 is :. The common space character is encoded as %20 as you noted yourself. The % character is encoded as %25.. The way you get %2520 is when your url already has a %20 in it, and gets urlencoded again, which transforms the %20 to %2520.. Are you (or any framework you might be using) double encoding characters?
