The International Mathematics Olympiad (IMO, also known as the International Mathematical Olympiad) is an annual mathematics competition for high school students [IMO Article in Wikipedia]. It is one - in fact, the oldest - of the International Science Olympiads. The first IMO was held in Romania in 1959. The problems come from various areas of mathematics, such as are included in math curricula ...

Competition between countries is quite subtle to detect, but is quite evident in the world economy. Countries compete to provide the best possible business environment for multinational corporations. Such competition is evident by the policies undertaken by these countries to educate the future workforce.

We Provide Over 10,000 Solution Manual and Test Bank

Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe-- is highlighted.
