HSM bundle provides the best value in integrated CAM software available. Included are HSM add-ons for SOLIDWORKS and Autodesk Inventor. Integrated CAM helps CNC programmers, designers, and engineers rapidly produce machined parts in one seamless workflow, while maintaining model associativity for quick updates to part changes.

The time-of-flight 3D laser scanner is an active scanner that uses laser light to probe the subject. At the heart of this type of scanner is a time-of-flight laser range finder. The laser range finder finds the distance of a surface by timing the round-trip time of a pulse of light.

Product engineers are designing, developing, and taking products to market at a dizzying rate today, and that's due in part to the advancements in software tools over the past few years. 3D CAD modeling tools especially have been beneficial to increasing the speed with which product engineers can generate models for tooling, prototyping, patenting, marketing, and [!]

Day after day, we get calls from people who have a Cad motor but are unable to tell what year/model they're looking at. Since many Cadillac 472 and 500 engines use the same block, and the later (425 and 368) engines look similar, as well, you'll have often to have a look deeper than the block casting numbers to finally determine which species of torque animal you have there.
