Health is influenced by more than health care, and the same is true for health disparities — transportation, housing, local development, crime prevention, public schools, job training, and social services. The recognition that “place matters” to health and the need to understand

Neighborhood Characteristics and Health in Baltimore, Maryland

HIV prevention programmes are rarely made available to inmates, and many prisoners with HIV are unable to access life-saving antiretroviral treatment (ART).¹¹ In many parts of the world, prison conditions are poor and inmates living with HIV barely receive the most basic healthcare. Moreover, mandatory HIV testing is enforced by some prison authorities, which is often seen as a breach of human rights.
