

deathless the blue fire pdf

A wight (Old English: wiht) is a creature or living sentient being. In its original usage the word wight described a living human being, but more recently, the word has been used within the fantasy genre of literature to describe certain undead. The earliest example of this usage in English is in William Morris's translation of the Grettis Saga, where draug is translated as "barrow wight".

Wight - Wikipedia

Synopsis. A king's apple tree bore golden apples, but every night, one was stolen. Guards reported that the Firebird stole them. The king told his two oldest sons that the one who caught the bird would receive half his kingdom and be his heir.
