Visual Studio includes a debugger that works both as a source-level debugger and as a machine-level debugger. It works with both managed code as well as native code and can be used for debugging applications written in any language supported by Visual Studio. In addition, it can also attach to running processes, monitor, and debug those processes. If source code for the running process is ...

Microsoft Visual Studio - Wikipedia

Accommodations are changes to materials or procedures that enable students with disabilities or English language learners (ELLs) to participate meaningfully in learning and testing. It is important to keep in mind that while some accommodations may be appropriate for instructional use, they may not be appropriate or
