The respiratory system (also respiratory apparatus, ventilatory system) is a biological system consisting of specific organs and structures used for gas exchange in animals and plants. The anatomy and physiology that make this happen varies greatly, depending on the size of the organism, the environment in which it lives and its evolutionary history.

Respiratory system - Wikipedia

Painting by spraying OCE3 Respiratory protective equipment Equipment and procedures Mixing and cleaning 3 Designate a room for paint mixing. This may be the paint store. 3 Wire in the room ventilation with lighting circuit to provide good standards of general ventilation.

Prenatal development (from Latin natalis, meaning 'relating to birth') is the process in which an embryo and later fetus develops during gestation. Prenatal development starts with fertilization, the first stage in embryogenesis which continues in fetal development until birth.. In human pregnancy, prenatal development, also known as antenatal development, is the development of the embryo ...
