getting gamers the psychology pdf

The relationship between women and video games has received extensive academic, corporate, and social attention. Since the 1990s, female gamers have commonly been regarded as a minority, but industry surveys have shown that in time the gender ratio has become closer to equal, and since the 2010s, women have been found to make up about half of all gamers.

In sociology and social psychology, an ingroup is a social group to which a person psychologically identifies as being a member. By contrast, an outgroup is a social group with which an individual does not identify. For example, people may find it psychologically meaningful to view themselves according to their race, culture, gender, age, or religion. It has been found that the psychological ...
