Japanese is a synthetic language with a regular agglutinative subject-object-verb morphology, with both productive and fixed elements. In language typology, it has many features divergent from most European languages. Its phrases are exclusively head-final and compound sentences are exclusively left-branching. There are many such languages, but few in Europe.

Russian grammar employs an Indo-European inflexional structure, with considerable adaptation.. Russian has a highly inflexional morphology, particularly in nominals (nouns, pronouns, adjectives and numerals). Russian literary syntax is a combination of a Church Slavonic heritage, a variety of loaned and adopted constructs, and a standardized vernacular foundation.

Introduction. Speakers of American English generally use the present perfect tense (have/has + past participle) far less than speakers of British English. In spoken American English, it is very common to use the simple past tense as an alternative in situations where the present perfect would usually have been used in British English.

One thing blogging and good copywriting share is a conversational style, and that means it's fine to fracture the occasional rule of proper grammar in order to communicate effectively. Both bloggers and copywriters routinely end sentences with prepositions, dangle a modifier in a purely technical sense, or make liberal use of the ellipsis when an EM dash is the correct choice "all in order ...

Teaching irregular and regular past tense verbs was, for a long time, one of my favourite activities. Unlike other parts of grammar it was cut and dried " the verb is either regular (add "ed) or not (change it, or not, in some other way). That being said, whenever I came to the list of irregular verbs with a class I always hoped that I would discover a secret or a shortcut to enable my ...
