The infinite monkey theorem states that a monkey hitting keys at random on a typewriter keyboard for an infinite amount of time will almost surely type a given text, such as the complete works of William Shakespeare. In fact, the monkey would almost surely type every possible finite text an infinite number of times. However, the probability that monkeys filling the observable universe would ...

Several months ago, I became fascinated with the Infinite Banking Concept. Since then, I have committed probably something to the tune of 100 hours in to researching the Concept, reading books about it, talking to professionals/bloggers in the personal finance field, as well as discussing the concept with three life insurance agents who specialize in the strategy.
