Although the OP asked about Microsoft Word 2010, there is another option in Microsoft Word 2016 that seems to work better. Based on this MSDN blog post, it is now possible to insert right-aligned equation numbers natively within the equation block. With this solution, there is no need for a table or style separators.

How do you easily add equation numbers to Microsoft Word

This page is a collection of links for parents and teachers. Topics are based on the curriculum for Kindergarten through grade five, although many pages will be of interest to older students. This page also includes a list of publishers and software companies.
