Rope Access Personnel: Recruitment Policy. Note: we only employ rope access technicians holding a valid certificate of competence issued by the Industrial Rope Access Trade Association (IRATA), following a period of training at an IRATA approved centre.. View our Current Vacancies

IRATA certified rope access technicians are employed by

Bottom line is, theoretically, you can install a pipeline without a golden weld, but most often the case is, you cannot. Either you have more than 1 test section, you don't for some reason, have flanges on each end, there are a variety of reasons that require a golden weld - they are the norm, not the exception.

Thorough visual inspection of the pressure vessel can be supplemented by a suitable NDT examination, to locate the defects and the extent. 2.3 Location of the damaged area by visual inspection and evaluation by

Inspection and Welding Repairs of Pressure Vessels

Inspections are made during and after the manufacturing cycle to ensure that parts meet specifications. Types of inspection include nondestructive examination (NDE), in which no portion of the completed weld is destroyed, and destructive tests, in which the weld is destroyed.

Safety Alert: EMF Radiation Hazard in Welding > Welds that Pass Inspection < While the goal is to join two pieces of metal, welding often involves a code specifying how the work should be performed. The basic idea is to run one or more weld "beads" along the joint so the sides fuse together without any gaps in between.
