### **Decoding the Disciplines - Ohio State University**

Applicable to multiple disciplines, the Decoding the Disciplines Paradigm offers a radically new model for helping students respond to the challenges of college and provides a framework for understanding why students find academic life so arduous.

### **The Decoding the Disciplines Paradigm**

Decoding the Disciplines is a process for increasing student learning by narrowing the gap between expert and novice thinking. Beginning with the identification of bottlenecks to learning in particular disciplines, it seeks to make explicit the tacit knowledge of experts and to help students master the mental actions they need for success in particular courses.

### **Decoding the Disciplines – Improving student learning**

This chapter presents a vision in which the kinds of thinking and learning that are commonly required of students become a regular part of the teaching and scholarship within every discipline.
