Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

"Any given method is only as effective as its implementation." Grammar-Translation Method (1890s-1930s):
Around the turn-of-the-century, language students often translated cumbersome volumes from Classical Greek or Latin into English via this approach. It consisted mainly of exhaustive use of dictionaries, explanations of grammatical rules (in English), some sample sentences, and exercise ...
