

theories of personality 8th pdf

Personality psychology is a branch of psychology that studies personality and its variation among individuals. It is a scientific study which aims to show how people are individually different due to psychological forces. Its areas of focus include:

Personality psychology - Wikipedia

Personality type refers to the psychological classification of different types of individuals. Personality types are sometimes distinguished from personality traits, with the latter embodying a smaller grouping of behavioral tendencies. Types are sometimes said to involve qualitative differences between people, whereas traits might be construed as quantitative differences.

Which theories & explanations make the most sense? So far, the two leading theories are that weâ€™re â€œslidingâ€• between parallel (or similar) realities, or that weâ€™ve visited holodecks (and may be in one, right now) that have some glitches. However, those concepts are broad. Iâ€™ve been trying to narrow the possibilities.
